12   caption: Site construction
13   focal_point: Smart
14
15 links:
16   - icon: person-chalkboard
17     icon_pack: fas
18     name: Follow
19     url: https://yamadharma.github.io/ru/course/os-intro/educational-project-researcher-website/
20 url_code: ''
21 url_pdf: ''
22 url_slides: ''
23 url_video: ''
24
25 # Slides (optional).
26 #   Associate this project with Markdown slides.
27 #   Simply enter your slide deck's filename without extension.
28 #   E.g. `slides = "example-slides"` references `content/slides/example-slides.md`.
29 #   Otherwise, set `slides = ""`.
30 slides: example
31 ---
32
33 Stages of project implementation
34
35 1) Placement on Github pages of a blank for a personal site.
36     Install the required software.
37     Download website theme template.
38     Host it on a git host.
39     Set a parameter for site URLs.
40     Place the site template on Github pages.
41
42 2) Add information about yourself to the site.
43     List of added data.
44         Post a photo of the site owner.
45         Post a short description of the site owner (Ringranhv).
```

29 ---
30 Data science is still an emerging field and thus has a high-demand and lucrative job market. But for anyone looking to break into the data science industry,
31 getting started can be daunting.
32 Some people go back to college, some teach themselves, and some attend data science bootcamps.
33
34 Regardless of which path you pick, though, data science involves high coding expertise. And like with many technical fields, skill demand and expectations are
35 always evolving. In this year 2021, here are the best data science programming languages to learn.
36
37 First, just a little background into data science.
38 What is data science?
39
40 Data Science is the study of information – and most companies are using data science to help make business decisions, solve complex problems and create
41 strategies to improve results and performance. Data science is also heavily involved in machine learning, deep learning, and artificial intelligence.
42 Why should you become a data scientist?
43
44 Learning data science can lead to a very lucrative career with a vast amount of employment opportunities. The demand for data scientists has greatly increase
